Angel Dust is an interesting concept, Lacks actual gameplay however seems to loop endlessly :( Its trash dont get it plz its for your own good.. this game is already quite good. Better than Boundel. Game lacks A lot of depth. Kinda gets repetitive after a while. It is more of a building game. You would go out to kill monsters for a while to get coins, then you would just build and upgrade lands. Quick tip: Never play warrior or scout, just mage and builder. And never buy weapons. They are Useless.. This game is poor. It needs alot of work.. I like this game much. it makes fun to play and its always even more fun to play when the creator makes the Live stream. I also like that you can talk to the Creator about the game when he streams live and tell your

ideas and getting a answer.. JOGO MUITO BOM MESMO VALE A PENA XD. Looking for a game that is medevil, minecraftISH, and has a multiplayer adventure style? Well, this is the game for you! I was looking around the steam store for free games (BC i poor :P) and came across this.. This game is just not good, its like minecraft, which you mine as well get if you are gonna play this. the 2D and 3D aspects really don't mix well at all in my opinion. Save your time and space on your computer and get another game.

Eugenics Vanguard Knights New Updates : Hello everyone! Thank you to everyone who has played the game, and a big thanks to those of you who have left reviews. They've been a joy to read and extremely helpful when making adjustments. After going through the reviews, I made quite a few adjustments to the game as of this morning. There are a number of changes, and I've also released two new videos explaining most of the changes in depth. The videos should be visible in the community hub called "New Updates - Gameplay" and "New Updates Story". Please check them out if you get the chance.
